EPA Reg No. 264-800

PRODUCT INFORMATION SHEET

Environmental Precautions and Soil Type Restrictions

Refer to the container label for additional use precautions and directions.

Environmental Precautions:

AGRICULTURAL CHEMICALS HAVE THE POTENTIAL TO MOVE INTO SHALLOW GROUNDWATER. THE FOLLOWING RESTRICTIONS HAVE BEEN DEVELOPED TO PROTECT DRINKING WATER SUPPLIES.

- Do not wash, load, or empty application equipment near any well, as this practice is a potential source of ground water contamination.
- In fields having soils with less than 15% field moisture holding capacity, special care must be taken not to over-irrigate, since substantial over-irrigation promotes the leaching of chemicals.
