pesticide application.**

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Information

Use this product on golf courses (excluding golf course putting greens) when overseeding with perennial ryegrass only (minimum seeding rate of 350 pounds per acre.)

How Much and When to Apply

Amount to Apply	When to Apply	Expected Control of <i>Poa Annua</i>	Use Precautions
0.58 to 1.0 lb/A	8 to 10 weeks before ryegrass overseeding	70% or greater control	(1) Some seedling mortality and temporary reduction in root growth of new seedlings may occur. (2) To reduce the potential for seedling mortality maintain a moist seedbed with light, frequent irrigation. (3) To maximize seedling establishment use a lower rate and/or the maximum time interval before overseeding. To maximize <i>Poa annua</i> control, use higher rate and shorter time interval before overseeding
