MAXFORCE® FC Professional Insect Control® Ant Bait Stations

SECTION 1. CHEMICAL PRODUCT AND COMPANY INFORMATION

Product Name: MAXFORCE® FC Professional Insect Control® Ant Bait Stations
Chemical Name: Fipronil
Common Name: Ant Bait Stations
MSDS Number: 1774
Chemical Family: Insecticide
Chemical Formulation: FIPRONIL
EPA Registration No.: 432-1256

Bayer Environmental Science
95 Chestnut Ridge Road
Montvale, NJ 07645
USA

For MEDICAL, TRANSPORTATION or Other EMERGENCY call 1-800-334-7577 24 hours/day
For Product Information call 1-800-331-2867

Product Use Description: Fipronil Based Food Bait in a Child-Resistant Plastic Station.

SECTION 2. COMPOSITION/INFORMATION ON INGREDIENTS

<table>
<thead>

</tr>
</thead>
<tbody>
<tr>
<td>FIPRONIL</td>
<td>120068-37-3</td>
<td>0.0100</td>
</tr>
</tbody>
</table>

SECTION 3. HAZARDS IDENTIFICATION

NOTE: Please refer to Section 11 for detailed toxicological information.

Emergency Overview: Keep out of the reach of children. Hazards to humans and domestic animals. Caution! Wash thoroughly with soap and water after handling.

Immediate Effects
- Skin: Minimally irritating to skin following prolonged direct contact. Not acutely toxic upon dermal exposure.
- Ingestion: Harmful if ingested

Medical Conditions Aggravated by Exposure: No known health conditions are aggravated by exposure to this product.
Signs and Symptoms
Untoward effects resulting from over-exposure are not anticipated to occur.

SECTION 4. FIRST AID MEASURES

Note to Physician
There is no specific antidote.

TREATMENT FOR FIPRONIL OVERDOSE:
In severe cases of overexposure by oral ingestion, lethargy, muscle tremors, and in extreme cases, possibly convulsions may occur. Recommendations for treatment are based on anticonvulsant therapy as routinely administered to humans. Phenobarbital or diazepam may be useful in controlling convulsions induced by Fipronil.

Even when symptoms of Fipronil intoxication are rapidly reversed by treatment, the treatment must be continued for several days, gradually decreasing the dose of anticonvulsant based on the patient’s clinical response. This is necessary due to the slow elimination of the compound.

SECTION 5. FIRE FIGHTING MEASURES

Flash Point
> 94 °C / > 201 °F
Method: Tagliabue Closed Cup
Not Flammable or Explosive

Fire and Explosion Hazards
Under fire conditions, toxic, corrosive fumes are emitted due to the active ingredient, fipronil.

Suitable Extinguishing Media
Water, Foam, Carbon dioxide (CO2), Dry chemical

SECTION 6. ACCIDENTAL RELEASE MEASURES

General and Disposal
Wear appropriate gear for the situation. See Personal Protection information in Section 8.

Non-hazardous waste. Sweep up spilled material. Place in a container for disposal. Dispose in accordance with all local, state/provincial and federal regulations.

Land Spill or Leaks
If the active ingredient fipronil is spilled on the ground, the affected area should be scraped clean and placed in an appropriate container for disposal. Decontaminate tools and equipment following cleanup. Avoid creation of dusty conditions.
## SECTION 7. HANDLING AND STORAGE

<table>
<thead>
<tr>
<th>Handling Procedures</th>
<th>Fipronil: Avoid contact with skin, eyes and clothing. Avoid breathing vapors and mists. Do not ingest.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Storing Procedures</td>
<td>Fipronil: Do not contaminate water, food, or feed by storage or disposal. Store unused boxes out of reach of children and animals. Store away from heat or sunlight.</td>
</tr>
<tr>
<td>Work/Hygienic</td>
<td>Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material:</td>
</tr>
<tr>
<td>Procedures</td>
<td>Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.</td>
</tr>
<tr>
<td></td>
<td>Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.</td>
</tr>
<tr>
<td></td>
<td>Wash skin promptly to remove accidental contact with the active ingredient, fipronil.</td>
</tr>
<tr>
<td></td>
<td>Remove and wash contaminated clothing before re-use. Then wash body thoroughly with soap and water and put on clean clothing.</td>
</tr>
<tr>
<td></td>
<td>Wash clothing with detergent and hot water before reusing. Contaminated clothing should not be taken home or laundered with other clothing.</td>
</tr>
</tbody>
</table>

### Min/Max Storage Temperatures
Not available

## SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

<table>
<thead>
<tr>
<th>Engineering Controls</th>
<th>Where engineering controls are indicated by use conditions of a potential for excessive exposure to the active ingredient exists, the following traditional exposure control techniques may be used to effectively minimize employee exposures: local exhaust ventilation at the point of generation.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Body Protection</td>
<td>Applicators and other handlers must wear: Long-sleeved shirt and long pants Shoes plus socks All pesticide handlers (mixers, loaders, and applicators) must wear a long-sleeved shirt and long pants, socks, shoes, and chemical-resistant gloves. Consideration must be given both to durability as well as permeation resistance.</td>
</tr>
<tr>
<td>General Protection</td>
<td>These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. Waste resulting</td>
</tr>
</tbody>
</table>
from these procedures should be handled in accordance with Section 13: Disposal Considerations.

Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers.

**Exposure Limits**

None Established

---

**SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

**SECTION 10. STABILITY AND REACTIVITY**

**Chemical Stability**
Fipronil is stable under normal handling and storage conditions described in Section 7.

**Conditions to Avoid**
- Direct sunlight
- Exposure to extreme heat

**Incompatibility**
- Strong bases
- Strong acids
- Strong oxidizing agents

**Hazardous Products of Decomposition**
- Decomposition Type: thermal
- Hydrogen fluoride
- Oxides of nitrogen
- Oxides of sulfur
- Carbon oxides
- Hydrochloric acid

**Acute Toxicity to Aquatic Invertebrates**

The following data is based on the technical grade active ingredient(s) (TGAI).

- **Daphnia**
  - EC50: 248 ug/l  
  - Exposure Limit: 48 h  
  - Mean concentration. Flow through.

**Toxicity Other Non Mammal Terr. Species**

The following data is based on the technical grade active ingredient(s) (TGAI).

- **Mallard duck**
  - LC50: > 5,000 mg/kg  
  - Exposure Time: 8 d  
  - Dietary concentrations. Mean concentration.

- **Bobwhite quail**
  - LC50: 48 mg/kg  
  - Exposure Time: 8 d  
  - Dietary concentrations. Mean concentration.

**Environmental Precautions**

This pesticide is toxic to birds, fish and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning equipment or disposal of waste. Do not contaminate water when disposing of equipment washwaters. Contain runoff to prevent entry into sewers or waterways.

**Additional Environmental Information**
For chemical fate data call the product information phone number listed in Section 1.

**SECTION 13. DISPOSAL CONSIDERATIONS**

<table>
<thead>
<tr>
<th>General Disposal Guidance</th>
<th>Wrap bait station in several layers of newspaper and discard in trash.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Pesticide Disposal:</td>
<td>Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.</td>
</tr>
<tr>
<td>Chemical additions,</td>
<td>Chemical additions, processing or otherwise altering this material may make the waste management information presented in this MSDS incomplete, inaccurate or otherwise inappropriate. Please be advised that state and local requirements for waste disposal may be more restrictive or otherwise different from federal laws and regulations. Consult state and local regulations regarding the proper disposal of this material.</td>
</tr>
<tr>
<td>EPA Hazardous Waste - No</td>
<td></td>
</tr>
